

So Yeong Park

Undergraduate Researcher · AINC Lab, Hanshin University
kong02931@gmail.com green4849.github.io github.com/green4849

My research focuses on Korean speech recognition and audio-language understanding. I evaluate models across diverse Korean speech datasets and examine how inference settings affect accuracy. My recent work explores audio retrieval to locate segments that match natural-language descriptions.

Education

Hanshin University · School of AI & Software Mar 2024 - H1 2027 (expected)
Bachelor's degree in progress · Double major in AI-Integrated Disability Life Care
Cumulative GPA **4.38 / 4.50** · 96 credits completed

Research Experience

AINC Lab · Undergraduate Researcher Jun 2025 - Present
Hanshin University · Advisor: Prof. Seon Man Kim
Research design, experiment implementation, results analysis, and paper writing

Evaluating Qwen3-ASR for Korean Speech Recognition 2026

- Compared 0.6B and 1.7B models on 10 Korean evaluation sets, analyzing character error rate (CER) across inference settings.
- Compared language, maximum generation length, temperature, and repetition penalty to derive reproducible default inference settings.

DCASE 2026 Task 6 · Audio Moment Retrieval 2026 - Present

- Reproduced the official baseline and full evaluation pipeline for locating audio segments matching natural-language queries.
- Experimenting with MS-CLAP audio-language representations and DETR-based temporal localization models.

Academic-Regulation QA Data and Error-Correction Training 2025 - 2026

- Designed and reviewed 9,958 synthetic examples with PASS, FAIL, and OOS labels; trained Qwen2.5-7B-Instruct and Llama-3.1-8B using 4-bit QLoRA.
- Measured a FAIL correction rate of 0.9897 with ground-truth review signals provided; analyzed the error-review bottleneck in end-to-end inference.

Leadership, Teaching & Service

Jun 2026 - Present	AIUX Lab Leader	Organize regular activities and research exchange for an undergraduate research community.
400+ hours total	Volunteer Service	Cumulative hours across volunteer activities; weekly tutoring for elementary school students as an ILJU scholar.
Spring & Fall 2026	Teaching Assistant	Supported Mathematics for AI & SW and Applied Deep Learning courses.
Jan 2026	CES 2026 Participant	Selected by the university to attend the technology exhibition.

Scholarships

During studies	Academic Excellence Scholarship Awarded every semester for academic excellence.
Jul 2025 - Graduation	ILJU Academy and Culture Foundation · Taekwang Group Selected for the 33rd cohort of scholars.

Awards & Honors

Jun 2026	Paper Encouragement Award	Korean Association of Data Science
	Constructing a Synthetic Dataset for Error Review and Correction Training in Academic-Regulation Question Answering Models	
Nov 2025	Outstanding Paper Award	Korean Institute of Smart Media
	Design and Construction of a Rubric-Based Training Dataset for University Academic Regulations	
Nov 2025	Grand Prize	Hanshin University
	Hanshin University AI Festival, General Division	
Oct 2025	Top Excellence Award	SW-Centered University Council
	2025 Elysian Gangchon AI Hackathon	
Aug 2025	Outstanding Paper Award	DAEHAN Society of Industrial Management
	Improving Service Delivery for AI-Based Assistive Devices and Welfare Equipment for People with Disabilities and Older Adults	
May 2025	Grand Prize	Korea University SW-Centered University Program
	AI/Blockchain Startup Competition
